

Common Super Ally Rating Scale

Star rating	Classification	Peer-group position	General interpretation
★★★★★	Excellent	Highest-performing 20%	Demonstrates leading performance, strong governance, high-quality outcomes and exceptional overall value across the majority of assessed parameters.
★★★★☆	Very Good	Next-highest 20%	Demonstrates strong and consistent performance across most parameters, with only limited areas requiring improvement.
★★★☆☆	Good	Middle 20%	Demonstrates sound and generally satisfactory performance, although some weaknesses or improvement opportunities remain.
★★★☆☆	Average	Next-lowest 20%	Meets basic or expected standards but demonstrates inconsistent performance, limited differentiation or several areas requiring improvement.
★☆☆☆☆	Below Average	Lowest-performing 20%	Demonstrates material weaknesses, below-peer performance, poor outcomes, insufficient transparency or elevated risks across several assessed parameters.

Percentile interpretation

Star rating	Percentile band
★★★★★	81st–100th percentile
★★★★☆	61st–80th percentile
★★★☆☆	41st–60th percentile
★★★☆☆	21st–40th percentile
★☆☆☆☆	0–20th percentile

The percentile is calculated against an appropriate peer group, such as:

Domestic peers;

Regional peers;

Global peers;

Comparable products;

Comparable institutions;

Comparable asset or project types;

Where sufficient information is available, the published rating may display both a **domestic rating** and a **global comparative rating**.
