transactions and mandates

Renewable Energy Project and Transaction Experience

#	Country	Role / Scope	Industry sector	Specialty area
1	Bangladesh	Advising the IPP on greenfield solar power projects in Bangladesh	Solar, Renewables	Corporate, Compliance, Regulatory
2	Bangladesh	Advising the client on its 100MW solar power project in Bangladesh.	Solar, Renewables	Corporate, Compliance, Regulatory
3	Bangladesh	Advised on land acquisition due diligence, and providing various other legal and regulatory services with regard to its waste-to-energy projects with the municipal authority.	Waste-to-Energy / Bioenergy, Renewables	Corporate, M&A
4	Bangladesh	Assisting a Chinese IPP with the development of a 55 MW wind power project	Wind, Renewables	Corporate, Compliance, Regulatory
5	Bangladesh	Advised on a 50MW solar power project in Rangpur, Bangladesh.	Solar, Renewables	Corporate
6	Bangladesh	Assisted on the proposed acquisition of a 30MW wind project in Bangladesh with an existing letter of intent; advising on all regulatory and legal aspects.	Wind, Renewables	Corporate, Regulatory
7	Bangladesh	Advised on an EPC contract, contract performance, and a possible dispute.	Renewables, EPC, Engineering and construction services	Corporate, Disputes
8	Bangladesh	Advised on the contractual documentation for a 100MW solar project in Bangladesh, including on the contractual performance, formation of a joint venture, and the development agreement.	Solar, Renewables	M&A
9	Bangladesh	Advised on the contractual documentation for a 60MW wind project in Bangladesh, including on the contractual performance, formation of a joint venture, and the development agreement.	Wind, Renewables	M&A
10	Bangladesh	We advised on a 10MW wind farm at Kalapara Upazila, Patuakhali District in Barisal, Bangladesh.	Wind, Renewables	Corporate
11	Bangladesh	Advising the client in relation to the development of a 50 MW solar project in Bangladesh. Advising on the legal and regulatory regime and requirements, land issues, and corporate matters, including shareholder issues and general and legal and regulatory environment.	Solar, Renewables	Corporate, Compliance, Regulatory
12	Bangladesh	Advised the developer in relation to developing and financing an 8MW solar power project in Bangladesh. We advised from the beginning, starting from initial structuring, development agreements, applications and proposals, PPA and IA negotiation and other related matters	Solar, Renewables	Project financing; Bankability / Credit-risk review
13	Bangladesh	Advising a guarantee institution and an international bank for providing financing for a 28 MW solar power project the client in Bangladesh along with assisting in financial closing. This is the first transaction of a guarantee institution in Bangladesh	Solar, Renewables	Project financing; lender-risk / Credit-risk review

Renewable Energy Project and Transaction Experience

#	Country	Role / Scope	Industry sector	Specialty area
14	Bangladesh	Assisted on the proposed acquisition of a 30MW+30MW wind turbine park project with an existing letter of intent; conducting a land due diligence, negotiating with the land brokers and owners, advising on the PPA and IA, and liaising with the national power authority and the sellers of the project.	Wind, Renewables	M&A
15	Cambodia	We assisted with the establishment of a joint venture between a leading renewable power developer in Southeast Asia and a major Cambodian conglomerate to develop an over 100MW wind power project, including advising on, drafting, and reviewing the shareholders' agreement and share purchase agreement.	Wind, Renewables	Corporate, M&A
16	Cambodia	As Cambodian legal counsel, we assisted on the potential acquisition of an operating 20MW solar energy project.	Solar, Renewables	M&A
17	Cambodia	We advised the lender on a US\$14M project financing to a Cambodian solar project company	Solar, Renewables, Banks, Public sector, NGO	Project financing, Development Institutions Financing, Lender-risk / Credit-risk review
18	Cambodia	We acted as local counsel for an international financial institution on the first industrial-scale solar power project in Cambodia to be connected to the national grid. We assisted throughout the course of this first-of-a-kind project, providing structuring, regulatory, and licensing advice, conducting due diligence, and advising on the financing and security structure.	Solar, Renewables, Banks, Public sector, NGO	M&A, Regulatory, Development Institutions Financing, Bankability / Credit-risk review
19	Cambodia	Acted as the client's local legal adviser in connection with the preparation of Cambodia's first national tender for a battery energy storage system, which will be structured as a public-private partnership (PPP). Our role includes advising on all aspects of Cambodian law as well as providing support on regulatory matters, such as licensing, and general and energy-sector-specific requirements to ensure compliance with national laws and regulations. We also advised on the project's tender documents and liaised with the government authorities to facilitate the process and ensure the tender meets national policy objectives.	Battery Storage, Renewables, Public sector, NGO	Investment, Regulatory
20	Cambodia	We assisted with preparing a feasibility report that thoroughly examined all aspects of Cambodian regulatory requirements for a potential wind power project investment in Cambodia. In addition to reviewing the regulatory framework, we conducted due diligence on the prospective land site, which included site visits to the identified area in Mondulkiri Province and Pailin Province.	Wind, Renewables, Banks, Public sector, NGO	Regulatory
21	Cambodia	We assisted in the preparation of transfer pricing documentation for tax years 2018 – 2020 (i.e. borrowings and management fees).	Renewables	Transfer pricing

Renewable Energy Project and Transaction Experience

#	Country	Role / Scope	Industry sector	Specialty area
22	Cambodia	We provided advice and comments on the transfer pricing arrangement and also assisted in the preparation of transfer pricing documentation for the tax year 2018.	Renewables	Transfer pricing
23	Cambodia	We assisted in the preparation of transfer pricing documentation for the tax years 2018 – 2020 (i.e. borrowings, management fees, and rental services).	Renewables	Transfer pricing
24	Cambodia	We assisted in the preparation of transfer pricing documentation for the tax years 2018 – 2020 (i.e. borrowings, management fees, and rental services).	Renewables	Transfer pricing
25	Cambodia	We provided assistance with its comprehensive tax audit.	Renewables, EPC, Engineering and construction services	Taxation, Disputes
26	Cambodia	We provided comprehensive legal and tax advice encompassing all key phases of the client's greenfield solar power project investment. This included guidance on the establishment of the project entity, obtaining the necessary regulatory licenses and permits, structuring the investment in a tax-efficient manner, and ensuring ongoing compliance with applicable local laws and industry regulations throughout the project lifecycle.	Solar, Renewables, EPC, Engineering and construction services	Corporate, Investment
27	Cambodia	As local counsel, we acted on the successful issuance of a green infrastructure bond by a solar company on the Cambodian Stock Exchange. The issuance was structured in two parts: one that was guaranteed by the CGIF and the other that was unguaranteed. Our role included advising on all relevant Cambodian legal and regulatory matters, which involved drafting and/or reviewing all agreements and guarantee and bond documents, and preparing and advising on the security documentation, as well as advising on the bond and security structure from the Cambodian law perspective. These efforts ensured compliance with local regulations, facilitating a smooth and efficient process.	Renewables, Banks, Public sector, NGO	Capital markets, Development Institutions Financing, Bond-market / rating-readiness
28	Cambodia	We prepared a legal environment report in relation to the development of a gas turbine combined cycle power plant project. The report outlined key legal and regulatory requirements, including foreign investment regulations, land ownership and usage, licensing procedures, power sector regulations, dispute resolution mechanisms, corporate structuring, and the specific licenses required for the O&M contractor involved in the project's development in Cambodia.	Renewables	Corporate, Investment, Regulatory
29	Cambodia	We prepared a detailed legal environment report to support the investment in a thermal steam energy project powered by biomass in Cambodia. The legal memorandum addressed critical legal and regulatory aspects, including foreign investment regulations, land ownership and usage, licensing procedures, thermal energy sector laws, safety and hazardous materials management, environmental and waste regulations, corporate structuring, and potential legal risks.	Biomass, Renewables	Investment, Regulatory

Renewable Energy Project and Transaction Experience

#	Country	Role / Scope	Industry sector	Specialty area
30	Cambodia	As co-counsel in Cambodia, we played an important role in supporting the country's first-of-its-kind green bond issuance by an issuer in the solar power sector. Our comprehensive assistance included conducting a thorough legal due diligence to identify and mitigate potential risks, issuing a detailed legal opinion, and advising on key transactional documents and other corporate and regulatory compliance matters.	Renewables	Capital markets, Project financing, Bond-market / rating-readiness
31	Cambodia	We are the Cambodian legal adviser to a lenders syndicate on an over US\$100 million project financing of a large solar PV power plant in Cambodia. We conducted a comprehensive legal due diligence, reviewing all key project documentation, including the power purchase agreement, implementation agreement, EPC contract, O&M agreement, and other material agreements. In addition, we provided advice on licensing, land acquisition, and other related matters that are significant to the operation of the project. We also assisted with preparing and reviewing the financing documentation from the Cambodian law perspective and provided guidance on the overall financing structure.	Solar, Renewables, Banks, Public sector, NGO	Project financing, Development Institutions Financing, Lender due diligence / Credit-risk review
32	Cambodia	We provided a comprehensive legal environment report in connection with a contemplated investment in a solar power project in Cambodia. The report covered the key Cambodian legal and regulatory considerations, including foreign investment rules, land ownership and use, licensing requirements, power sector regulations, corporate structuring, and potential legal risks. The report provided the project developer with clear insights into the Cambodian legal considerations.	Solar, Renewables	Corporate, Investment, Regulatory
33	Cambodia	We prepared a legal environment report for the development of a hydropower and electricity transmission project in Cambodia. The report focused on analyzing the key legal and regulatory requirements, including land structure and acquisition, foreign investment and exchange control, dispute resolution mechanisms, licensing processes, corporate structuring, and potential legal risks associated with the project's development in Cambodia.	Hydro, Renewables, Transmission and Distribution	Investment, Regulatory
34	Cambodia	As local counsel, we conducted a comprehensive legal due diligence on the licensing, corporate structure, and project agreements for a wind energy development project. Our review focused on identifying the legal risks and ensuring compliance with Cambodian laws and regulations. We also provided advice on regulatory, permitting, and licensing requirements, and conducted an analysis of the land structure and ownership related to the project.	Wind, Renewables	Investment, M&A, Regulatory, Bankability / Credit-risk review
35	Cambodia	We advised on the acquisition of several greenfield solar IPPs in Cambodia totaling 300MW.	Solar, Renewables	M&A, Regulatory

Renewable Energy Project and Transaction Experience

#	Country	Role / Scope	Industry sector	Specialty area
36	Cambodia	We provided legal and tax structuring and advisory services for a solar power tender with the national electricity utility. We advised on Cambodian law and regulations in relation to investment, energy, land, permitting, financing, and general aspects of the 40MW solar project.	Solar, Renewables	Investment, Taxation, Advisory, Regulatory, Bankability / Credit-risk review
37	Cambodia	We assisted in the preparation of transfer pricing documentation for the tax years 2018 – 2020 (i.e. borrowings and management fees).	Renewables	Transfer pricing
38	Cambodia	We assisted in the preparation of transfer pricing documentation for the tax years 2018 – 2020 (i.e. borrowings and management fees).	Renewables	Transfer pricing
39	Cambodia	We assisted in the preparation of transfer pricing documentation for the tax year 2020 (i.e. borrowings and management fees).	Renewables	Transfer pricing
40	Cambodia	We provided comprehensive legal and tax advice in respect of project financing activities for renewable energy projects in Cambodia.	Renewables, Public sector, NGO	Financing, Project financing, Advisory, Bankability / Credit-risk review
41	Cambodia	We assisted on a 60MW solar power plant project in Kampong Chhnang province. We advised on all aspects of the deal, including financing, contract drafting, investment licensing, environmental impact assessment, power plant operational licenses, and taxation. This is the first national solar park project in Cambodia organized as a public-private partnership to allow for international project financing without the need for a government guarantee.	Solar, Renewables, Infrastructure	Investment, Taxation, Advisory, Regulatory, Lender-risk / Bankability review
42	Cambodia	We provided comprehensive advisory support and assistance with the preparation of a bid proposal submission to the national electricity utility for a solar park tender. Our support included the preparation and review of legal documentation, representation of the client throughout the bidding process, and coordination to ensure the timely submission of all necessary materials in compliance with the national electricity utility's requirements.	Solar, Renewables	Regulatory
43	Cambodia	We provided comprehensive advisory support and assistance with the preparation of a bid proposal submission to the national electricity utility for a solar park tender. Our support included the preparation and review of legal documentation, representation of the client throughout the bidding process, and coordination to ensure the timely submission of all necessary materials in compliance with the national electricity utility's requirements.	Solar, Renewables	Regulatory

Renewable Energy Project and Transaction Experience

#	Country	Role / Scope	Industry sector	Specialty area
44	Cambodia	We conducted legal due diligence on a hydropower project, focusing on regulatory and compliance matters as well as the review of material agreements from an insurability perspective. Our review covered all key project documentation, including licenses, insurance policies, and land-use right agreements. In addition, we provided advice on subrogation rights and other local law aspects related to insurance in Cambodia.	Hydro, Renewables, Insurance	Corporate, Regulatory
45	Cambodia	Acted as legal counsel on an 80MW wind power project – one of the first of its kind in Cambodia. Assisted on all aspects of the project: advising on the financing and security structure and the tax structure, reviewing all project documentation, assisting with project negotiations, and advising on land issues, and licensing and permitting.	Wind, Renewables	Investment, Project financing, Taxation, Advisory, Regulatory, Bankability / Credit-risk review
46	Cambodia	We researched and provided a report on the regulatory requirements and procedures for a bilateral-based wind power project in Cambodia.	Wind, Renewables	Corporate, Regulatory
47	Cambodia	We assisted on the successful acquisition of a 73.9MW photovoltaic solar power plant in Cambodia, one of the first cross-border acquisitions in relation to an operating solar power plant. We provided comprehensive support on all local law aspects. Our scope of work included conducting legal due diligence that covered regulatory, compliance, and land matters; reviewing all key project agreements from the local law perspective, including the power purchase agreement, implementation agreement, lease agreement, EPC contract, O&M agreement, labor agreements, financing and security documents, and other material contracts. We also advised on licensing, permitting, and compliance matters. In addition, we supported the preparation of transaction documents, assisted with deal closing, and completed the necessary post-closing registrations.	Solar, Renewables	M&A, Regulatory, Bankability / Credit-risk review
48	Cambodia	We assisted the project developer on a 40MW solar power plant project in Cambodia. We advised on all aspects of the deal, including reviewing the power purchase agreement, implementation agreement, land lease agreement, necessary licenses, and taxation. This is the second phase of a 100MW national solar park project organized as a public-private partnership between a development finance institution and the national electricity utility.	Solar, Renewables	Investment, Advisory, Regulatory, Bankability / Credit-risk review
49	Cambodia	As local counsel, we conducted comprehensive legal due diligence on the project agreements for a renewable energy project. Our review focused on identifying risks and any Cambodian legal compliance issues. In addition to assessing the enforceability and local law implications of key contracts, including the power purchase agreement, implementation agreement, EPC and O&M contracts, and land-related agreements, we also advised on regulatory, permitting, and licensing requirements. Our support helped ensure the project's bankability and alignment with both investor expectations and local legal standards.	Renewables	Corporate, Investment, Regulatory, Bankability / Credit-risk review

Renewable Energy Project and Transaction Experience

#	Country	Role / Scope	Industry sector	Specialty area
50	Cambodia	We assessed and evaluated the project's ability to generate stable and sufficient cash flows to meet its debt obligations. This includes analysis of construction and commissioning risk, solar-resource and energy-yield assumptions, technology performance, power purchase agreements, offtaker Creditworthiness, EPC and O&M arrangements, grid connection, operating costs, insurance, liquidity, debt-service coverage, security structures, regulatory compliance and environmental and social risks.	Solar, Renewables	Advisory, Credit & Bond Ratings
51	Cambodia	Our multidisciplinary team advised on project structuring, guaranteed bond rating, market entry, environmental and social requirements, EPC, and O&M contracts and transmission infrastructure	Hydro, Renewables	Advisory, Credit & Bond Ratings
52	Laos	We advised on its EPC project in a hydropower project.	Hydro, Renewables	Corporate, Compliance, Regulatory
53	Laos	As lead counsel, we are assisting with the entire process of setting up a Lao subsidiary for its business, starting from a due diligence of its current arrangement, to incorporation, licensing, labor compliance, and tax registration.	Hydro, Renewables, Manufacturing	Investment, Taxation
54	Laos	We advised on the contractual aspects of a supplier contract under the laws of the Lao PDR.	Hydro, Renewables, Manufacturing	Investment
55	Laos	As lead counsel, we advised the lender on the restructuring of a project finance agreement regarding a US\$42.15 million term facility agreement with a Lao project developer in relation to a hydropower project. We have reviewed and revised the existing facility agreement, advised on the security transactions, and issued a legal opinion. We also advised and assisted with drafting the security agreements and registering the lender's security interests with the state authorities.	Hydro, Renewables, Banks	Project financing, Lender-risk / Credit-risk review
56	Laos	We advised on an investment in existing hydropower projects in the Lao PDR, including on the requirements for registered capital and licensing, and assisted with the share transfer registration process.	Hydro, Renewables	Investment
57	Laos	We assisted on the acquisition of two hydropower projects in the Lao PDR and advised on legal and environmental regulation compliance. We also assisted with registration of the share transfer and regulatory compliance, including amendment of corporate documents, notifying the relevant authorities and updating its shareholder registry book post-acquisition.	Hydro, Renewables	M&A, Regulatory

Renewable Energy Project and Transaction Experience

#	Country	Role / Scope	Industry sector	Specialty area
58	Laos	We advised on the overall structure of an investment in one of the largest hydropower projects in the Lao PDR, carrying out the legal due diligence of the project and project company; reviewing and revising the shareholder agreements; drafting the concession agreement with the government; and drafting and finalizing the deed of loan novation and the EPC Contract novation.	Hydro, Renewables	Investment, Bankability / Credit-risk review
59	Laos	We advised as local counsel on a 600MW cross-border Laos-Vietnam wind power project, the first in Laos and arguably the largest wind farm project in the ASEAN region. We reviewed the signed project development agreement to analyze its impact on the PPA and to advise on the concession agreement.	Wind, Renewables	Investment
60	Laos	We assisted one of the developers of the hydropower project with drafting the project MOU to be entered into with the national government, and also the MOU among the project developers.	Hydro, Renewables	Investment
61	Laos	We assisted one of the developers of the downstream hydropower project with drafting the project MOU to be entered into with the national government, and the MOU among the project developers.	Hydro, Renewables	Investment
62	Laos	Assisted with the acquisition of an equity interest in the a 912MW hydropower project (with an installed capacity of 912MW), including conducting a legal due diligence on the project and the target company, and drafting and reviewing project documents and agreements.	Hydro, Renewables	M&A
63	Laos	Assisted one of the developers of the a 1,460MW hydropower project (installed capacity of 1,460MW) with reviewing and revising a share transfer agreement and the project company's shareholders' agreement.	Hydro, Renewables	M&A
64	Laos	We assisted with labor compliance for a multinational hydropower corporation, obtaining employees' visas, work permits, and stay permits.	Hydro, Renewables	Labour, Regulatory
65	Laos	We assisted with market entry and its legal, tax, and accounting compliance obligations in Laos.	Hydro, Renewables	Investment, Compliance
66	Laos	We assisted with foreign contractor registration and tax compliance in the Lao PDR.	Hydro, Renewables	Compliance, Labour
67	Laos	We provided full assistance on the acquisition of an equity interest in a Lao company developing the first large-scale solar farm in the country, including advising on the regulatory, environmental, and tax aspects, corporate structuring, legal due diligence, and reviewing, revising, and negotiating project agreements.	Solar, Renewables	M&A, Taxation, Advisory, Regulatory, Bankability / Credit-risk review
68	Laos	We advised on the legal and tax structuring of its investment in a hydroelectric power project, and its legal and tax positions under the terms of the concession agreement with the national government.	Hydro, Renewables	Investment, Advisory
69	Laos	We were engaged to draft, review, and finalize an engineering, procurement and construction contract for the development of a 120MW hydropower plant.	Hydro, Renewables	Investment, Advisory

Renewable Energy Project and Transaction Experience

#	Country	Role / Scope	Industry sector	Specialty area
70	Laos	We advised on the concession agreement and other government project documents, and subsequent amendments.	Hydro, Renewables	Investment
71	Laos	We assisted with the client's labor compliance, applying for employees' labor visas, work permits, and stay permits for a construction company working on a hydropower project in Laos.	Hydro, Renewables	Labour, Regulatory
72	Laos	We advised on its legal and tax obligations as a foreign contractor under the CA for a hydropower project in Laos.	Hydro, Renewables	Advisory
73	Laos	We assisted a hydropower project company and its shareholder to obtain project financing.	Hydro, Renewables	Project financing, Bankability / Credit-risk review
74	Laos	Assisted the client with accounting and tax compliance work, including preparing annual reports, tax advisory, registration and filing; liaising with tax authorities and assistance with annual government tax audit.	Hydro, Renewables	Advisory, Compliance, Disputes
75	Laos	We assisted with the legal, tax, and accounting compliance of the EPC provider in relation to its engagement for a hydropower project.	Hydro, Renewables	Compliance, Regulatory
76	Laos	We assisted the EPC provider to a hydropower project in Laos.	Hydro, Renewables	Corporate, Compliance, Regulatory
77	Laos	We assisted with the legal and tax compliance obligations as a foreign subcontractor under the CA for a hydropower project in Laos.	Hydro, Renewables	Compliance, Regulatory
78	Laos	As local counsel, we assisted with reviewing and revising the tender documents for the bidding process of an EPC service provider for a hydropower project in southern Lao PDR, as well as the EPC contract, to ensure the terms and conditions were aligned with the Lao PDR's legal requirements.	Hydro, Renewables, EPC, Engineering and construction services	Investment
79	Myanmar	Advised on a contract dispute in connection with construction services under EPC contract.	Hydro, Renewables, EPC, Engineering and construction services	Disputes
80	Myanmar	Advised the client with regards to capital-gains tax disputes and tax implications with regards to farm-out transactions.	Renewables	Project financing
81	Myanmar	Our team advised on the supply and installation of hydropower plant for a 63MW IPP project. We advised extensively on all tax and regulatory aspects, such as import of plant and equipment, construction licensing, insurance and liability.	Hydro, Renewables, Insurance, EPC, Engineering and construction services	Advisory, Regulatory

Renewable Energy Project and Transaction Experience

#	Country	Role / Scope	Industry sector	Specialty area
82	Myanmar	Advised the EPC provider on the optimal structure and compliance for the construction of a 300MW solar power project.	Renewables, EPC, Engineering and construction services	Corporate, Compliance, Regulatory
83	Myanmar	Advising the developer, assisting with licenses and permits, land acquisition and related matters in relation to developing a 50MW solar power plant in Panchagarh, Bangladesh.	Solar, Renewables	Corporate, Compliance, Regulatory
84	Myanmar	Advised on its 30MW wind farm in Chaung Tha. We draft and negotiate the PPA and other project documents, advise on the tax and equity structure and assist with securing all licenses and permits.	Wind, Renewables	Advisory, Regulatory
85	Myanmar	Advised the client by devising the structure for the construction of a power generation project, including advising on tax implications for non-resident EPC contractor and helping with tax compliance matters for non-resident taxpayer in Myanmar.	Solar, Renewables, EPC, Engineering and construction services	Advisory, Compliance
86	Myanmar	Drafted MOA, revised existing MOA, drafted and negotiated PPA, provided advisory and tax services.	Hydro, Renewables	Investment, Advisory
87	Myanmar	Our firm has provided technical assistance and training to the relevant government hydropower department on PPP and PPA drafting.	Hydro, Renewables, Public sector, NGO	Corporate, Compliance, Regulatory, Training
88	Myanmar	Advised a potential investor in the project company, including due diligence and review of all project documentation.	Renewables	Investment, Bankability / Credit-risk review
89	Myanmar	We assisted with registration of the company in Myanmar. We also provide corporate secretarial services as well as tax compliance services.	Hydro, Renewables	Investment, Compliance, Corporate Secretarial
90	Myanmar	We were selected as sponsor counsel for a major hydropower project. Advised on land acquisition, environmental and social compliance, financing aspects of the project, project structuring, licensing and permits, among others.	Hydro, Renewables	Project structuring, Bankability / Credit-risk review
91	Myanmar	Provided structuring and regulatory advice in respect of the client's plan to enter Myanmar either as an EPC contractor or as a developer of energy projects.	Renewables, EPC, Engineering and construction services	Regulatory
92	Myanmar	Our regional team is assisting the sponsor with the development of a hydropower project, notably the drafting of project documentation.	Hydro, Renewables	Corporate, Compliance, Regulatory
93	Myanmar	Acting for the sponsor of 20MW hydro power, including all drafting and negotiating of necessary agreements with the ministry and related departments.	Hydro, Renewables	Commercial Transactions

Renewable Energy Project and Transaction Experience

#	Country	Role / Scope	Industry sector	Specialty area
94	Myanmar	Advising client on all aspects of structuring and implementation of the solar project.	Solar, Renewables, EPC, Engineering and construction services	Investment, Project financing, Bankability / Credit-risk review
95	Myanmar	Assisted the client for incorporation, licensing, tax planning structure and legal advisory services for its Projects (renewable energy) in Myanmar.	Renewables	Corporate, Compliance, Regulatory, Legal
96	Myanmar	Assisted the client with regards its litigation strategy.	Hydro, Renewables	Disputes
97	Myanmar	Advised the client on regulatory issues regarding the installation of an 8MW kinetic water turbine farm in a project site in Myanmar.	Hydro, Renewables	Regulatory
98	Myanmar	Provided assistance in drafting template hydropower PPAs.	Hydro, Renewables, Public sector, NGO	Commercial Transactions, Regulatory
99	Myanmar	Helped setup the Hydropower Developers Directors Working Group, a NGO representing more than 100 stakeholders in Myanmar's hydro sector.	Hydro, Renewables, Public sector, NGO	Development Institutions Financing
100	Myanmar	Drafted a detailed report on legal framework and PPA provisions for renewable energy projects in Myanmar.	Hydro, Renewables, Public sector, NGO	Regulatory
101	Myanmar	Provided assistance and advice on the drafting of the project MOU.	Hydro, Renewables	Corporate, Compliance, Regulatory
102	Myanmar	Assisting the developer in the private management of national hydropower plants and related transmission elements, increasing installed capacity.	Hydro, Renewables	Corporate, Compliance, Regulatory
103	Myanmar	Assisted the developer in the private management of national hydropower plants and related transmission elements, increasing installed capacity.	Hydro, Renewables	Corporate, Compliance, Regulatory
104	Myanmar	Assisted the client with regards to their 100MW wind power project in Magwe. Fully drafted the Power Purchase Agreement and reviewed the concession agreement.	Wind, Renewables	Corporate, Compliance, Regulatory, Legal
105	Myanmar	Advising lender on a loan to a leading Myanmar energy company to finance expansion of the network of solar micro-grids.	Solar, Renewables	Project financing, Development Institutions Financing, Lender-risk / Credit-risk review

Renewable Energy Project and Transaction Experience

#	Country	Role / Scope	Industry sector	Specialty area
106	Myanmar	Drafted a detailed report on legal framework and PPA provisions for renewable energy projects in Myanmar.	Renewables	Project financing, Bankability / Credit-risk review
107	Myanmar	Drafted a comprehensive report clarifying the legal and tax framework of power projects in Myanmar.	Oil and gas midstream and downstream (inc; petroleum products), Hydro, Renewables	Advisory
108	Myanmar	We advised on the energy sector in general and hydropower, drafting a comprehensive report on the regulatory framework of power projects in Myanmar.	Hydro, Renewables	Regulatory
109	Myanmar	We assisted the client with conducting due diligence.	Renewables	Corporate, Compliance, Regulatory
110	Myanmar	Documentation of the developer's planned solar project in Kayin State.	Solar, Renewables	Corporate, Compliance, Regulatory, Legal
111	Myanmar	Our firm has frequently assisted our client on their research projects in Myanmar. In 2016, we assisted with a detailed and comprehensive report on the Myanmar power market.	Hydro, Renewables, Public sector, NGO	Investment
112	Myanmar	Advised the client, an EPC contractor specialized in the Energy industry, on regulatory issues regarding the installation of hydro/solar hybrid projects and floating solar projects.	Hydro, Renewables, EPC, Engineering and construction services	Regulatory
113	Myanmar	Advised a potential investor in the project company on all local law aspects, due diligence share purchase agreements and shareholders agreement and all permits.	Renewables	M&A, Regulatory, Bankability / Credit-risk review
114	Myanmar	We helped structure, document and permit the construction services of a hydropower dam project.	Hydro, Renewables, EPC, Engineering and construction services	Commercial Transactions, Regulatory
115	Myanmar	Assisted the client with regards to its acquisition of shares in a Thai energy company.	Renewables	M&A
116	Myanmar	Acting for the consortium including the national government.	Hydro, Renewables, Public sector, NGO	Corporate, Compliance, Regulatory, Legal
117	Myanmar	Advised the client with regards to the framework regulating rooftop solar activities in Myanmar.	Renewables	Investment

Renewable Energy Project and Transaction Experience

#	Country	Role / Scope	Industry sector	Specialty area
118	Myanmar	We drafted and negotiated the PPA, assist on all regulatory matters, devising the corporate structure and securing all licenses and permits.	Hydro, Renewables	Investment, Regulatory
119	Myanmar	Communication was handled in Chinese language by our PRC qualified lawyer and our Chinese-speaking team.	Hydro, Renewables	Advisory
120	Myanmar	Provided legal and tax services in relation to the market entry and ongoing operations of this power sector service provider.	Hydro, Renewables, EPC, Engineering and construction services	Investment, Advisory
121	Myanmar	Our team assisted a European state-owned power project developer on various early-stage aspects of contracting out the technical services for a planned 600MW major hydro project on the Yeywa river.	Hydro, Renewables, EPC, Engineering and construction services	Corporate, Compliance, Regulatory
122	Myanmar	Advised the client on various aspects of the energy legal framework in Myanmar.	Thermal, Hydro, Renewables, Transmission and Distribution	Corporate, Compliance, Regulatory, Legal
123	Myanmar	Assisted with regards to government liaison in connection with several potential solar projects.	Solar, Renewables	Compliance, Regulatory
124	Myanmar	We assisted the company on its tax compliance obligations.	Hydro, Renewables	Compliance
125	Myanmar	Assisted the client with regards to its land acquisition in Myanmar for the purpose of solar project. Prepared a thorough land acquisition report detailing the options available to the client in order to secure its project site and designed structuring options for each land acquisition option.	Solar, Renewables, Real estate	Research, Corporate, Compliance, Regulatory, Legal
126	Myanmar	Assisted the client with the documentation of a project rolling out PV installations at telecom towers.	Renewables	Corporate, Compliance, Regulatory
127	Myanmar	Advised the sponsor with regard to the development of five mini hydropower projects in cooperation with a local partner.	Hydro, Renewables	Corporate, Compliance, Regulatory, Legal
128	Vietnam	As local counsel, we assisted with the Vietnam aspects of a large-scale M&A transaction to acquire the majority shares in a Lao PDR project company, which is developing a hydropower project to export electricity to Vietnam.	Hydro, Renewables	Corporate, M&A, Regulatory, Bankability / Credit-risk review
129	Vietnam	Acted as lead external counsel on the acquisition of a greenfield wind development project, advising on all aspects of the deal, including on structuring, regulatory aspects, and land aspects.	Wind, Renewables	Corporate, M&A, Regulatory

Renewable Energy Project and Transaction Experience

#	Country	Role / Scope	Industry sector	Specialty area
130	Vietnam	We acted as local counsel on a cross-border acquisition transaction relating to a rooftop solar project in Vietnam, conducting legal and tax due diligence, assisting with regulatory filings and approvals, and negotiating complex acquisition documentation.	Solar, Renewables	Corporate, M&A, Taxation, Advisory, Regulatory
131	Vietnam	We provided a comprehensive overview of the energy sector in Vietnam, and conducted due diligence in connection with the acquisition of a wind power project.	Wind, Renewables	Corporate, Investment, Regulatory, Bankability / Credit-risk review
132	Vietnam	We advised on tax matters and labor issues in Vietnam and provided support on the tax aspects of structuring cross-border transactions.	Hydro, Renewables, Manufacturing, Real estate	Project financing, Taxation, Compliance, Labour
133	Vietnam	As local counsel, we supported the sellers on the Vietnamese aspects of a US\$1.4 billion global M&A transaction for the acquisition of a renewable-energy platform. We assisted with both pre-closing and post-closing, overall structuring, tax analysis, and documentation review.	Renewables	M&A, Taxation, Advisory
